

I love listening to Air1 radio station. I am a mother of two children and I appreciate having a radio station we can listen to as a family without hearing vulgar, sexual, and innoproptiate crap. I think it is important to be able to listen to the positive alternative. Our family would be very sad and upset if we could not enjoy what air1 offers us daily. Please protect Air1 so that kids, teens, and their parents can have clean programming while listening to the radio.
